Work Health and Safety Policy

We aim to ensure our education and care service is a tobacco, drug and alcohol-free environment at all times in accordance with Education and Care National Law and Regulations. The use of alcohol and/or other drugs may impact on the ability to work safely and ensure the safety of children in their care.

Impaired workers can mean increases in lateness, inefficiency, absenteeism, and lost time. Employees should present themselves for work and remain, while at work, capable of performing their work duties safely.

Research provides evidence that exposure to tobacco smoke poses major health risks to both children and adults. Babies and young children are especially vulnerable to the poisons of second-hand smoke because their bodies are developing. Effects of passive smoking include Sudden unexpected death in infancy (SUDI), infections and conditions include croup, bronchitis and the increased likelihood of childhood asthma. (*Red Nose, 2020*).

Working in line with the *Code of Conduct Policy* and *Work Health and Safety Policy* our Service aims to provide a policy regarding a tobacco, drug and alcohol-free environment with clear guidelines to ensure we create an environment that is drug-safe for all children, employees and visitors. This policy sets out expectations for all employees, volunteers and visitors regarding what is and what is not acceptable behaviour and practice in relation to alcohol and drug use and provides procedures which outline how to deal with impaired people, employees, volunteers and visitors, at the service.

SCOPE

This policy applies to staff, educators, students, volunteers, management, the approved provider, nominated supervisor and visitors of the Service.

IMPLEMENTATION

The Education and Care Services National regulations state the Approved Provider must ensure the environment is free from the use of tobacco, illicit drugs and alcohol and ensure that employees, or volunteers at the service are not affected by alcohol or drugs (including prescription medication) so as to impair the person's capacity to supervise or provide education and care to children being educated and cared for by the service. All staff, employees, volunteers and students will abide by this policy at all times, including social events held outside of service hours.

Definitions

- **Prescription Drugs:** Prescribed and over the counter medications can also be misused for the purposes of intoxication. Employees taking medication should find out how it may affect them by consulting their doctor and advising the Nominated Supervisor or Responsible Person if the prescribed medication will affect their mental and physical ability to perform their duties safely.
